Integrated Technology Systems, Inc.

“We don’t make money selling equipment, we earn it by making sure you’re happy with your decision to purchase from us.”

Beta systems now shipping with huge discount!

Integrated Technology Systems has developed an exciting new Law Enforcement product to enhance officer safety and increase the potential to apprehend criminals.

THUG FindIR™ is an indispensable tool when utilized in search and rescue operations and disaster relief efforts. It is also essential in locating missing children, Alzheimer's patients and victims of crimes and/or accidents.
